

## CONTENTS

Contents . . . . .	3
Editorial . . . . .	5
Nicotinic Receptors in Healthy and Ischemic Heart with Special Reference to the Bezold-Jarisch Reflex. <i>D. M. Aviado</i> . . . . .	7
Spiperone-Induced Endothelium-Dependent Relaxation of Porcine Coronary Artery: An Investigation into the Underlying Mechanism. <i>G. J. Molderings, G. Engel, E. Roth and M. Göthert</i> . . . . .	24
Effects of Nilvadipine on Regional Cerebral Blood Flow and Skin Blood Flow in Anesthetized Cats. <i>S. Takakura, Y. Satoh, H. Satoh, J. Mori and M. Kohsaka</i> . . . .	38
Effects of Buprenorphine on Respiratory and Cardiovascular Functions during Hypoxia in Anaesthetized Rabbits. <i>S. Delpierre and P. Vanuxem</i> . . . . .	49
Cardiotoxic Effects of High Doses of Cyclophosphamide in Albino Rats. <i>S. Kumar, R. K. Gupta, A. S. Bhake and N. Samal</i> . . . . .	58
Antinociceptive Action of Dopamine Agonists in the Nucleus Raphe Magnus of Rats Is Mediated by D <sub>2</sub> Receptors. <i>S. Phillips, L. Gelgor and D. Mitchell</i> . . . . .	66
Post-Train Depression of Ganglionic Transmission in the Presence of <i>d</i> -Amphetamine. <i>D. Christ</i> . . . . .	76
Studies on Mercury-Induced Myotonia in the Mouse Diaphragm. <i>S. H. Liu and S. Y. Lin-Shiau</i> . . . . .	86
Propranolol-Induced Hyperreactivity in Guinea-Pig Lung Parenchyma Strips: Possible Role of Histamine. <i>B. Vanda, L. M. Montaña, P. Segura, H. Rubio, M. Selman and M. H. Vargas</i> . . . . .	101
Pharmacological Profile of a New 5-Hydroxytryptamine <sub>2</sub> Receptor Antagonist, DV-7028. <i>T. Shibano, T. Tanaka, Y. Morishima, M. Yasuoka, K. Watanabe and F. Fujii</i> . . . . .	114
